

Avalanche on Woody Ridge

Date

Sun, 01/12/2025 - 11:55

Activity

Skiing

Observed a large avalanche on a west facing slope approx 10000ft, with a higher crown at 10200'. Crown depth 4-6'. HS-Ns-D2-R2-O . Ran 1000ft and into terrain I had previously considered safe.

Region

Cooke City

Location (from list)

Woody Ridge

Observer Name

Nick Gaddy
