Avalanche at Goose Lake

Date Wed, 03/19/2025 - 18:50 Activity Skiing

Today we saw a D2 <u>slab</u> avalanche at Goose Lake, E facing, 10800 ft. We estimate this avalanche to have ran in the early hours of 3/17. This was the only avalanche we observed in the past 4 days.

Region Cooke City Location (from list) Goose Lake Observer Name J Mundt
